

Math Competency

Students should complete the UW-Green Bay Mathematics Competency before the completion of 60 earned and in progress credits. Students who fail to complete the Mathematics Competency by this point will not be allowed to register for mathematics classes, or for courses with college-level mathematics as a prerequisite until proof is submitted that the competency is completed. Students who have not taken the WMPT and have not satisfactorily completed or transferred in a college-level mathematics course must enroll in MATH 94, MATH 100, BUSAN 220, or PSYCH 205 depending on academic program. Students should consult with their advisor to determine the appropriate course.
